

Dear Reader,

Euroguidance Hungary started operating in Szeged in 2000 in the framework of the Leonardo da Vinci Programme of the European Commission. Presently it operates as a unit of the Public Employment Service and the National Employment and Social Office and as a member of the international Euroguidance network of the European Union. Our main objectives are to support vocational guidance, life-long learning and international mobility as well as to promote language learning and employability.

On our website, www.npk.hu, you can find lots of information on European education opportunities, higher education institutions, vocational trainings as well as data on the conditions of entering the tertiary education.

Euroguidance Hungary

Training without borders

Educational information in the European Union

English language course in London...
