

Introduction

Euroguidance Hungary started operating in Szeged in 2000 within the framework of the Leonardo da Vinci Programme of the European Commission. Being the member of the Euroguidance network of the European Union, Euroguidance Hungary currently operates as a unit of the Public Employment Service, National Employment and Social Office. Our main objectives are to support career planning, life-long learning and international mobility as well as to promote language learning and employability.

Our website www.npk.hu provides useful information on European education opportunities, higher education institutions, scholarship and internship possibilities as well as data on the conditions of entering the Hungarian secondary and tertiary education system.

Our leaflet is a collection of useful internet links which promote international mobility.

Links for mobility
