Year of Publishing: 2014.

Introduction

Euroguidance Hungary started operating in Szeged in 2000 in the framework of the Leonardo da Vinci Programme of the European Commission. Presently it operates as a unit of the National Employment Service and the National Labour Office. During the period of 2014-2020 the European Union background is provided by the ERASMUS+ programme. The main objectives of the centre are to support vocational guidance, lifelong learning and international mobility, promote Hungarian and international counselling projects as well as language learning and employability.

On our website www.npk.hu and www.euroguidance.hu you can find lots of information on European education opportunities, higher education institutions as well as on vocational trainings. Visitors can also gain information on the conditions of entering tertiary education and on the mutual recognition of qualifications.

Euroguidance Hungary

Training without borders

Information on education in the European Union

English language courses in London...
Internship opportunities in Germany...
Conditions of stay in Italy...

and

- › training opportunities,
- › conditions of mobility,
